Tower of Saviors copyright. 2013 Mad Head Limited.

Tower of saviors skill level up guide.

Number Name Description 1 Class Name The name of your character 2 Attribute List of attributes that can be acquired by the character 3 Reset You can click on the reset button to undo the spent attribute points before saving 4 Add You can click on the [+] icon to invest points into attributes 5 Related Attributes Other attributes related to the selected attributes are displayed 6 Attribute Icon Icons for attributes, which can be dragged and added to the quick slot 7 Attribute Name and Level The name of the selected attribute and its level 8 ON / OFF Certain attributes can be turned on and off as the player wishes 9 Save Skill/Attribute Changes Click on Save to save the changes you have made to the skills/attributes or Cancel to undo the changes. 3. Class Skill Cleric Cure Krivis Aukuras Zalciai Daimo Priest Monstrance Paladin Restoration Turn Undead Barrier Oracle Arcane Energy Clairvoyance The content above is subject to updates and modifications. You can also spend Silver to buy attribute points. You can click on the [+] icon on the UI to invest points to the desired skill. The number of overheats available will be displayed on the skill icon as black dots. You can also drag attributes to the quick slot to turn the attribute on and off on the fly. Attribute Point Scrolls can be transferred via Team Storage but it cannot be traded via the market or between players. Bonus Status Points earned through quests or Statues of Goddess Zemyna can still be spent freely as the player wishes. Skills - Skill Points are earned when a character increases in Class Level. The content above is subject to updates and modifications. A 10% commission fee is charged when extracting Attribute Points (100 silver per 1 Attribute Point). Newly acquired skills are added automatically to the quick slot and can be allocated to a key of your choice. Skills can be learned through User interface skills and attributes, which can be opened by pressing the icon. The above contents are subject to updates and changes. Explanation of the status points Description of the ST state determines the physical attack and the HP accuracy determines the maximum percentages of HP, HP Recovery and HP Potion Recovery, Block Rate and Max Stamina Int Determines the Magic Attack SPR determines the maximum percentages of SP, SP Recovery and SP Potion Recovery and Summons Dex HP / SKILL attack determines the attack speed, the penetration of the blocks And the critical attack The effects of state points investments will be displayed in the lower half of the Character user interface. The following is the list of skills that can be made in rolls. State points are distributed automatically when a character is leveled. New skills can be learned every 15, 30 and 45 class levels. The maximum level that can be reached is 390 and the report of the assigned status points it depends on the feature of Build chosen. [AUTOMATED STAT INCREASE RATIO] [STATS AND THEIR EFFECTS] The above content is subject to updates and changes. Extraction point Attribute - You can extract attribute points in the user interface Attributes - Attribute points can be extracted in the unit of 1,000. The status of a skill is divided into STR, HP, int, SPR and Dex. Number name Description 1 Class name The name of the Your Character 2 Skill Point Remaining ABILITY POINTS 3 Class level The level requirement for learning skills 4 PS PS 8 Atiliba anu id etnerroc ollevil II Atiliba id ollevil. 7 amaith is aznetepmoc al ehc olleuQ Atiliba emon 6 Atiliba ellen itnup eritsevni rep j+{ anoci'llus cilc eraf iouP uS Atiliba id ollevil. 5 odipar tols ola etnuigga e etanicsart erness onossop ehc. Atiliba el rep Atiliba elled The quantity of SP a skill consume for use 9 Overheating The number of overheats of a rating has 10 Cooling The length of time it takes for the ability to use again 11 Save the skill changes / Attributes Click on Save to save the changes you made to the abilities / attributes or Clear to undo changes. 5. Capacity Scroll available for craft with Pardoner As Simony Skill - The Pardoner class can create scrolls with effects of various abilities Cleric Tree with the use of their ability Simony. 4. The automatic allocation of status points is not affected by the order in which classes are advanced in a single build.
